Dear Katie: Thyroid and other levels are normal here for a bitch that has just has a litter.

Jean

Adult Optimal Levels	T4 2-4 Fg/dl	FT4 1-3 ng/dl	T4AA < 2.0
	T3 50-150 ng/dl	FT3 3-8 pg/ml	T3AA < 2.0

- X** Thyroid levels are adequate.
- X** Recommend annual retesting during anestrus.

Vaccine Titer Serology

- X** Serologic/vaccine titers for distemper and parvovirus show adequate humoral immunity indicating that this dog should respond with a boosted anamnestic response to afford protection against these agents upon exposure.
- X** Recheck serologic/vaccine titers annually.

Dr. Jean Donalds, DVM
